Principal's Message

**WE MUST ALWAYS CHANGE, RENEW, REJUVENATE
OURSELVES, OTHERWISE WE HARDEN**

The year 2020 was a game changer in many ways bringing life to almost a standstill stage.. the most affected were the kids. The team of Akshara Vaagdevi International School, with the support of management has taken this phase too in its stride with all the possibilities. The journey through these difficult times made us more strong, pioneering and achiever by adopting all possible ways with limitations to make best use of time to engage and enrich the kids with new methods of teaching and learning process.. We adapted to online teaching using ICT overnight. This new method of learning has kept kids engaged in the learning process and from the fear and boredom of staying indoors due to corona..

The teaching team has proven that when there is a will there's a way, against all odds the academic session did proceed in unexpected ways and successfully concluded. We would like to thank all the parents for their undying support.
