Dated: 10.03.22

Dear Parents,

Greetings!!

“Every day is a chance to begin again. Don’t focus on the failures of yesterday, start today with positive thoughts and expectations”

The times have been tough and have had their effect on us. However, we at AVIS have triumphed over the trials and tribulations given as a result of the COVID situation. The situation has now mostly stabilized and we’ve almost triumphed over the pandemic. Even then, understanding that conditions can shift rapidly, AVIS will remain flexible to adjust to prevailing conditions and continue to enforce preventive measures and strategies to the extent.

We step into the new academic session with gusto and anticipation. Challenge and choice are key elements to our progressive educational outlook.

AVIS has always been an innovative, “forward-thinking School”. Our plan for the future revolves around our students and involves the creation of a learning environment aided by our culture and values, a learning mindset and the strength of community and camaraderie.

We care for your child above all. A focus on innovation and excellence is also envisioned and with your support, we will ensure that vision becomes a reality. Our faculty and staff will do their utmost to cultivate the students in such a way that their physical and mental well-being is taken care of and we will also challenge them to excel with our rigorous academic program.

We have high expectations for our students while supporting each child on his or her individual journey. We render our thanks to the students and parents for providing us with your support and passion.

We appreciate the parents who had joined the orientations conducted on 03.03.22 (for New admission) and 04.03.22 (for existing students).
