R.G.R Siddhanthi Educational Society

CBSE Affiliation No. 130323 | School Code 57702

Circular 016/2022-23

Date: 27.06.2022

Dear Parents,

Greetings from Akshara Vaagdevi International School!

The National Education Policy 2020 has affirmed the need to move from rote to competency-based learning making it more focused on developing the creative and critical thinking capacities of students to meet the challenges of the 21st century proactively. It emphasizes that learners must be equipped with the ability to solve problems and assessment must shift from testing primarily rote memorization skills to one that is more formative, is more competency-based, promotes learning and development for our students, and tests higher-order skills, such as analysis, critical thinking, and conceptual clarity. We at AVIS, believe in the importance of developing a greater competitive spirit and ability to explore their latent potential among students, from a very young age. Exposing students to assessments of national and international levels offers an opportunity for developing this attitude alongside an improvement in analytical thinking, problem solving ability and aptitude in the long run.

HOTS
OLYMPIAD | AY'22-23

Discover the Right Potential of Your Child

Testing Core Aptitude Skills

Wizklub Higher Order Thinking Skills (HOTS) Olympiad for kids is the most comprehensive Olympiad focusing on developing core aptitude and logical reasoning abilities in kids. HOTS Olympiad is India's first cognitive learning Olympiad for children.

Logical Thinking

This module assess student's proficiency in building algorithmic logic and their efficiency in using logic and reasoning for better decision making.

Comprehension

Assess students core comprehension skills and evaluate their ability to understand complex crux and the big picture of content.

Critical Thinking

Assess students core critical thinking skills and evaluate their ability to understand relationships and draw connections between different concepts.

Problem Solving

Assess students on their problem solving skills and understand their proficiency in building mathematical aptitude across estimation, patterns.

Please note that the questions will be based on critical thinking, logical thinking, comprehension and problem solving skills. (<https://wizklub.com/programs/hots-olympiad/>) The examination will be conducted online for **45 marks**. Kindly inform the respective Class Teacher in case of any concern faced during the registration process. You may also contact:
