2023

PRINCIPAL MESSAGE

"Sow a thought, and you reap an act; sow an act, and you reap a habit; sow a habit, and you reap a character; sow a character, and you reap a destiny."

"HABITS ARE THE INVISIBLE ARCHITECTURE OF DAILY LIFE."

I can say that good habits can indeed be a key factor in achieving success. Habits are actions that we perform regularly, often abstractedly, and they can have a significant impact on our lives.

Developing good habits can help us to be more efficient, organized, and focused, which can in turn help us to achieve our goals more effectively. For example, if you make a habit of waking up early and starting your day with exercise, you may find that you have more energy and focus throughout the day, which can lead to greater productivity and success in your work or personal life.

On the other hand, bad habits hold us back and prevent us from reaching our full potential. For example, if you have a habit of procrastinating or avoiding difficult tasks, you may find that you struggle to meet deadlines or achieve your goals. Developing good habits takes time and effort, but it can be well worth it in the long run. By consistently practicing positive habits, we can build the skills, discipline, and focus needed to achieve success in our personal and professional lives.

Here are some more specific examples of good habits that help lead to success:

Setting Goals: One of the most important good habits for success is setting clear, achievable goals. By defining what you want to achieve, you can create a roadmap for success and ensure that you are taking meaningful steps towards your desired outcome.

Planning and Organizing: Being organized and having a plan can help you stay on track and focused. Creating to-do lists, using a planner, or scheduling your day can help you prioritize tasks and ensure that you are making progress towards your goals.

Continuous Learning: Successful people never stop learning. Developing a habit of continuous learning and seeking new knowledge help you stay relevant and adaptable in an ever-changing world.

Time Management: Time is a valuable resource, and developing good time management habits can help you make the most of it. Setting priorities, avoiding distractions, and delegating tasks can help you make the most of your time and achieve your goals more efficiently.

Consistency and Persistence: Developing a habit of consistency and persistence can help you stay committed to your goals and see them through to completion. By sticking to a routine and pushing through setbacks, will help build the resilience and discipline needed for success.

Overall, good habits are a powerful tool in achieving success. By identifying and practicing positive habits, you can build the skills and mindset needed to achieve your goals and create a fulfilling life.

LET US ALL LEARN WAYS OF SELF-DEFENSE TO SAVE OUR LIVES AS WELL AS THE LIVES OF OTHERS.

On 1st March World Civil Defence day was celebrated in Akshara Vaagdevi International School. Grade X students participated in it. The students spoke on the importance of this day and the reason behind it by displaying placards.

The day honors and recognises those who work in civil protection. More people are encouraged to learn about safety precautions and the protective skills they would require in the event of any type of emergency, whether it be man-made or natural.

Every year, a different aspect of civil defense and emergency preparedness is highlighted by the World Civil Defence Day theme. "Uniting the world's leading industry specialists for the safety & security of future generations" is the theme of this year's World Civil Defence Day.

The event helped the students to understand that by uniting and taking action, we can make sure that we are ready for emergencies and can defend ourselves and our surroundings.

WE ALL ARE INTERCONNECTED AND INTER-RELATED. WITH DETERIORATING WILDLIFE, HUMANS WILL BE LEFT WITH A DARK FUTURE.

Akshara Vaagdevi International School celebrated World Wildlife Day. During the assembly the students shared their views on the significance of **World Wildlife Day**. Every 3rd of March, wildlife is celebrated all over the world for the UN World Wildlife Day. This date was chosen as it is the birthday of CITES, the **Convention on International Trade in Endangered Species of Wild Fauna and Flora, signed in 1973**.

This created awareness among the students of the importance and that every living organism has the right to live on this planet as much as humans.

PRACTICE IS THE HARDEST PART OF LEARNING, AND TRAINING IS THE ESSENCE OF TRANSFORMATION.

Induction programs have the potential of elevating the teaching profession and fostering a collaborative learning community for all educators. These benefits can lead to a much higher rate of retention, as new educators find themselves in an environment that cultivates continual growth and success.

On 1 March, Akshara Vaagdevi International had an orientation program on holistic development for new teachers, improving practice, learning professional responsibilities and ultimately positively affecting student learning. In addition to providing support to beginning teachers, these programs allow veteran teachers to reflect upon practice and unite the learning community as each individual works toward the same goal - improving the quality of education.

Our Principal Ms Vanaja gave introductions to key personnel, such as administrators, department chairs, and support staff. She was very particular about the mentoring program for new teachers, pairing them with an experienced teacher who can provide guidance and support and help new teachers navigate the challenges of teaching and provide advice on classroom management, lesson planning, and other aspects of teaching. The school counselor Mr Srikanth encouraged professional development opportunities such as workshops, seminars, and training sessions, which can cover a range of topics, from curriculum development to classroom management strategies. This included social events, team-building exercises, and collaborative planning sessions.

The responsibility for success lies with the entire induction team—the instructional leader, the mentor, and the beginning teacher. By providing a supportive and welcoming environment, schools can help new teachers feel confident and prepared to take on the challenges of teaching.

"PI IS THE AMERICAN SYNONYM OF PROSPERITY."

Pi Day is an annual celebration of the mathematical constant π (pi), which is approximately equal to 3.14159. It is typically celebrated on March 14th (3/14), which represents the first three digits of π .

The celebration of Pi Day began in the late 1980s and has become increasingly popular over the years, particularly in academic and scientific communities. Many people celebrate Pi Day by baking and eating pies, particularly fruit pies, as a nod to the homophone "pi" and "pie." Some people also hold pi-themed events, recite pi to as many digits as possible, and participate in other activities related to math and science.

Pi has a number of important applications in mathematics, science, and engineering. It is used to calculate the circumference and area of circles, as well as in calculus, trigonometry, and many other fields.

Pi day was celebrated in Akshara Vaagdevi International School on 14 March 2023.

International Day of Mathematics which is known as Pi Day is celebrated on March 14 every year to recognise the mathematical constant, Pi, which defines the ratio of a circle's circumference to its diameter. The value for Pi is 3.14. For people who follow the month/date format, March 14 represents the value of Pi (3.14). March is the third month of the year while the following number is 14, hence the March 14 date.

A special assembly was conducted by Chandragupta house. Students of Grade VIII, IX and X made flash cards and charts of Pi and spoke about the importance of Pi day and how it is celebrated all over the world. And it was followed by a speech by Math HOD.

Principal Madam addressed the students about this special day and gave some valuable suggestions to the students. Teachers of grade VI to X

conducted activities for students in the classes. Students will recognise the importance of the irrational number, which is used in everyday life, whether it is to calculate distances in navigation, or measure circles and spheres.

"THE BEST WAY TO PREDICT THE FUTURE IS TO CREATE IT."

"Graduation - is a time to celebrate new beginnings and say goodbye to everything that has given a reason to smile. It is warm memories of the past and big dreams for the future". Kindergarten graduation is an exciting milestone for pre-primary children as it's their first step towards a future full of hopes and possibilities. It marks a new beginning that adds new dimensions to their school life and the journey they begin towards knowledge and education.

Akshara Vaagdevi International School celebrated Graduation Day with a lot of stage activities by dancing to the tunes . Chief guest Ms. Shazia Saleem counseling psychologist and Mental health professional and Smt.C.S Radha Carnatic Musician graced the occasion with their presence and followed by principal Ms. Vanaja addressed the gathering and explained about academic Curriculum

The programme began with a welcome dance presented by the Nursery kids. The students left everybody spellbound as they danced on tunes with highly coordinated movements that promptly set the tone and mood of the atmosphere to an all-time high. Their energetic booming and clapping coaxed the enthusiastic parents to sway to its lively beats.

Then came the most important part of the celebrations i.e. PP2 students walking on the stage for their PP2 convocation. Their smiling faces were welcomed by rapturous applause from the audience as they received scrolls of merit on the dais. It was indeed a joyous and memorable day for the little ones as they received their Graduation certificates from our dignitaries.

TIME TO HIT THE BOOKS AGAIN!

The first day of school was a mixture of emotions students were excited to see their friends and teachers. The teachers, on the other hand, were delighted to receive the students back to classes .

Special assembly was conducted by the teachers, Ms.Maheshewari coordinator reminded everyone about the ground rules of the school, and suggested that they value their time at school to become a better citizen. Ms.G.Vanaja Principal addressed the assembly and shared her words of wisdom and encouraged all students to participate actively in extracurricular activities, and engage in meaningful discussions with our peers groups, and wished all our students best of luck for the upcoming session.

As the day progressed, teachers worked hard to make the classes engaging and interactive.

WATER IS LIFE AND IN ORDER TO SAVE LIFE ON OUR PLANET, WE NEED TO FIRST SAVE WATER.

World Water Day is observed every year on 22nd March all over the world. It focuses attention on the importance of water and how to preserve it. As we know that water is essential for life, without water we can't survive. Up to 60% of the human adult body is water. All plants and animals need water to survive.

Water Day 2023 was celebrated as a special assembly on March 23 to highlight the importance of freshwater and save water in day to day life. Students of Grade III to VIII participated in a special assembly by using paintings, placards, posters and slogans to bring awareness of save water and the importance of water. The day focuses on taking action to tackle the global water crisis. Students explained According to the UN, Asia and the Pacific region have the lowest per capita availability of water in the world, with groundwater use in the region expected to increase by 30% by 2050. Around 40 percent of all the water used for irrigation comes from aquifers. Also, almost all of the liquid freshwater in the world is groundwater.

RED IS THE COLOR OF STRENGTH, ENDURANCE, AND PASSION.

"Life is like a box of crayons." This being said, it is a must to celebrate our colors of life with enthusiasm and high spirits!

Thus, the Kindergarten wing of Akshara International School celebrated the color of love - Red. The Red Day was celebrated on 26th March by the grades of PP1 and PP2. The color red symbolizes love, commitment, strength and bravery. It is associated with strong and powerful emotions such as fear, anger and enthusiasm.

For the special occasion, all the little wits were dressed in red. A special activity was conducted for them by a Kindergarten where they were made to make a hand puppet.

It is important to conduct such celebrations occasionally as it helps in giving the Children a deeper understanding about each color and significance. It helps the children build cognitive skills as well as their creativity. The tiny tots celebrated the day with great excitement and huge smiles. Overall, it was a very fun and everlasting learning experience for the students.

“ALL OUR DREAMS CAN COME TRUE, IF WE HAVE THE COURAGE TO PURSUE THEM”

WE HUB, India's first and only state-led incubator by the Government of Telangana, celebrated its fifth anniversary on International Women's Day. The event was held at Taj Krishna and featured notable speakers, such as Telangana state's Information Technology (IT) Minister, K. T. Rama Rao; Principal Secretary to the Government of Telangana, IT E & C department, Jayesh Ranjan; and other dignitaries. The celebration recognised the achievements of women entrepreneurs and honored their contributions to the economy.

Akshara Vaagdevi Principal Ms.Vanaja , IT Teacher Ms.Sarita along with 5 students of Grade X participated in this event, where Various school students were also a part of this event along with PMS Boduppal.

The event also included an interactive session with the women entrepreneurs and the audience, where IT Minister, K.T. Rama Rao, engaged in a Q&A session with them. Mr Jayesh Ranjan, Principal Secretary, Information Technology (IT), emphasized the importance of women's participation in entrepreneurship and applauded WE HUB's role in promoting women entrepreneurship. Two students from Pallavi Model School Boduppal also shared their idea of imparting education to rural areas and also got appreciation from the Minister.

HAPPINESS IS A CHOICE, CHOOSE IT EVERY DAY.

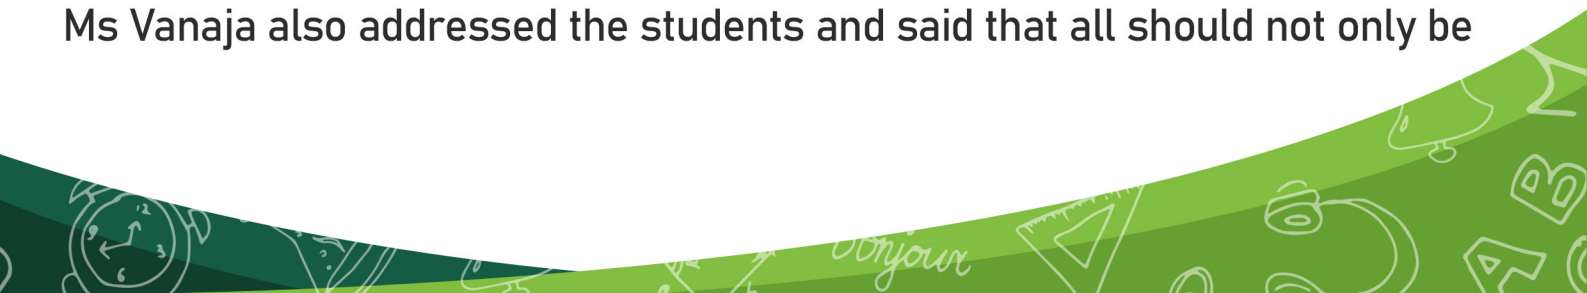

International Day of Happiness is a global event arranged by the United Nations annually on March 20. It serves to remind us that being happy is a human right and worth celebrating. Some believe that having a positive mindset is responsible for as much as 90 percent of our feelings of well-being. It is also said that people who are happy tend to live longer and have fewer health problems.

AVIS celebrated International Day of Happiness today on March 20th. The theme for the 2023 International Day of Happiness is "Be Mindful. Be Grateful. Be Kind."

Joshika of Grade 9 invited the guest for the day Ms. Annie Namrata to address the gathering. She is a Project Manager with a bachelor's degree in Commerce from Osmania University, Hyderabad and a master's degree in Social Work (specializing in Clinical & Community Practice) from CHRIST (Deemed to be University), Bangalore. She has interned with various organizations like Voice 4 Girls (acted as a counselor for adolescents girls).

She is passionate about being a voice for the voiceless while also helping them to help themselves through advocacy and evidence-based approaches. Addressing the students she spoke about the significance of happiness and spreading joy and happiness. Mr. Srikanth, School counselor also inducted the students about being happy.

Students from Grade 5 to 7 wore smiley masks spreading joy. Principal, Ms. Vanaja also addressed the students and said that all should not only be

happy but also make others happy. Students were able to comprehend the significance of being happy and spreading joy to all. The event ended with vote of thanks by Riya followed by National song.

The Euphoric way of celebrating the Festal moments of joy and gracious event was held at Akshara Vaagdevi International School, seeking the blessing of God. On this occasion the day started with a humble Prayer, the School Principal Mrs. Vanaja and Vice-Principal Mrs. Rachna Singh, Teachers, Admin and Support Staff joined hands and made the event a Graceful one. The celebrations for Sree Rama Navami. Students were duly briefed about the importance of Sree Rama Navami and also curtailed with the importance of the Character Rama, Lord of Ayodhya and his wonderful journey.

The students were dressed up to embrace the event with costumes of Sree Rama, Queen Sita, Prince Lakshman and every loving disciple of Sree Rama the Powerful Lord Hanuman. An unforgettable event to smear the start of the academic year 2023-2024 Session.

The Jubilant way of expressing the Festive Joy and Students experiencing the Joyful Event was the Start of the New Year, according to the Telugu New Year (UGADI).

Akshara Vaagdevi International School celebrated Ugadi by seeking the blessing of God. On this occasion the Day started with a humble Prayer, the School Principal Mrs. Vanaja and Vice-Principal Mrs. Rachna Singh, Teachers Admin and Support Staff joined hands and made the event a Graceful one. The celebrations for Ugadi were duly processed in the presence of the teachers and parents. Students were duly briefed about the importance of Ugadi (Telugu New Year) and also entertained with folk - songs. The students sang "Shree Shob Krita Naam Shree Panchanga Sravanam" very audaciously. All the students were dressed in traditional attire to embrace the event. A memorable event to mark the occasion and quickly start the academic year 2023-2024 session.
