Population, Conservation & Health People, Planet & Purpose

Message by Principal

Dear Students, Staff and Parents,
Population, conservation, and health are deeply interconnected. As our population grows, responsible use of natural resources and protection of the environment become essential. Clean air, safe water, nutritious food, and a healthy environment are the foundations of a healthy society. Let us inspire our students to conserve resources, respect nature, and make responsible choices. Together, with a shared purpose, we can build a sustainable future where people prosper and the planet flourishes.

WARM REGARDS,

**MS.VANAJA
PRINCIPAL**

Message by Incharge

Education is most effective when teachers work together to create meaningful and standardized learning experiences for every child. By integrating Computational Thinking into everyday teaching, we empower students to think critically, solve problems creatively, and become confident, lifelong learners. As educators, our responsibility is not just to teach concepts but also to inspire curiosity, innovation, and a love for learning."

Standardized resource creation ensures consistency, quality, and meaningful learning across classrooms. When we integrate Computational Thinking into our teaching, we move beyond content delivery to develop students' critical thinking, logical reasoning, creativity, and problem-solving skills. Together, these practices empower educators to create engaging learning experiences and prepare students to thrive in a rapidly evolving world."

WARM REGARDS,

**MR. RAGHAVENDRA
(MATH HOD/INCHARGE)**

Vanmahotsav and National Doctor's Day

On 1st July, Akshara Vaagdevi International School celebrated Vanmahotsav and National Doctors' Day with enthusiasm, promoting environmental responsibility and gratitude towards the medical fraternity.

The celebrations featured four special assemblies for different grade groups, with students presenting speeches, songs, skits, and presentations on tree plantation, conservation, healthy living, and sustainable practices. The message "Plant a Tree, Save the Earth" inspired students to contribute towards a greener and healthier future.

The Doctors' Day celebrations were enriched by the presence of Dr. Adithi Ambulikar, Dr. Deepthi, Dr. Sanketh Singh, Dr. Sachita Rathod, and Dr. N. Narendrakumar, who interacted with students and shared valuable insights on hygiene, nutrition, preventive healthcare, eye care, healthy lifestyles, and the medical profession. Their inspiring messages emphasized empathy, discipline, compassion, and service.

The celebrations beautifully reinforced the message that caring for nature and caring for people go hand in hand. The school extends heartfelt gratitude to the doctors, students, and teachers whose enthusiastic participation made the celebrations meaningful and memorable.

Water Saver Challenge

1st July @AVIS: As part of the Almanac Event, students of Akshara Vaagdevi International School enthusiastically participated in the Water Saver Challenge, which was conducted on 2nd July, showcasing innovative models and practical ideas to promote water conservation at home and in school.

The challenge encouraged students to think creatively and develop simple, sustainable solutions to reduce water wastage. Their working models demonstrated concepts such as rainwater harvesting systems, smart irrigation techniques, automatic water-level controllers, sensor-based taps, greywater recycling, rooftop water collection, and water-saving devices for households and school campuses.

Through their presentations, students emphasized that every drop of water is precious and highlighted everyday practices such as turning off taps while brushing, repairing leaks promptly, reusing water for gardening, and using water judiciously. They explained how small changes in daily habits can collectively make a significant impact on conserving this vital natural resource.

The Water Saver Challenge not only enhanced students' scientific thinking, creativity, and problem-solving skills but also nurtured a deep sense of environmental responsibility. Their innovative ideas reflected a strong commitment to building a sustainable future and inspired everyone to become responsible stewards of water.

The event served as a powerful reminder that "Every Drop Counts", encouraging students, teachers, and parents to adopt water-saving practices and work together towards creating a water-secure and sustainable future.

English Essay Writing Competition

3rd July @AVIS: The English Essay Writing Competition for Grades V to VIII was conducted on 3rd July. The competition provided students with an excellent opportunity to showcase their creativity, language skills, and original ideas. Participants wrote thoughtful essays with great enthusiasm and confidence. The competition encouraged critical thinking, effective communication, and the use of appropriate vocabulary and grammar. Students displayed remarkable imagination and a positive competitive spirit throughout. The competition was a great success and inspired young writers to continue developing their writing skills.

Household Science Experiments

15th July @AVIS: As part of the Almanac Event, on 16th students enthusiastically presented Science in Daily Life – Household Science Experiments through vibrant house-wise exhibits, demonstrating how science is an integral part of our everyday activities.

Each house showcased simple yet fascinating experiments using readily available household materials, helping students connect scientific concepts with real-life applications. The exhibits included demonstrations on air pressure, density, filtration, acids and bases, surface tension, electricity, water purification, and chemical reactions observed in the kitchen and at home.

Through these interactive models and experiments, students explained the science behind common phenomena such as cooking, cleaning, preservation of food, floating and sinking, and energy conservation. Their presentations highlighted that science is not confined to laboratories but is present in every home and every aspect of daily life.

The house-wise exhibits fostered curiosity, teamwork, creativity, and scientific temper among students. The event provided an excellent platform for experiential learning, enabling students to explore, investigate, and communicate scientific ideas with confidence.

The exhibition successfully reinforced the message that *science is all around us*, inspiring students to observe, question, and appreciate the wonders of science in their everyday lives.

Library - Scavenger Hunt Week

13th July @AVIS: To foster a love for reading and help students become more familiar with the school library, the Library Scavenger Hunt Week was successfully conducted from 13th July to 18th for Grades 2 to 4 in the School Library as per the School Almanac.

The activity was designed to make library visits engaging, interactive, and educational. Students enthusiastically participated in a series of fun challenges that encouraged them to locate books, identify authors, explore different sections of the library, understand book arrangements, and use library resources effectively. Through these exciting tasks, students strengthened their observation, reading, and information-finding skills while gaining confidence in navigating the library independently.

The Scavenger Hunt Week witnessed active participation, teamwork, curiosity, and a wonderful spirit of learning among the students. The event transformed the library into a vibrant space of exploration and discovery, reinforcing the importance of reading and lifelong learning.

Aavirbhav Competition

18th July @AVIS: As part of our school's commitment to nurturing creativity and artistic excellence, Aavirbhav – An Inter House Art Competition was successfully organized on 18th for students across various Grades. The competition provided an inspiring platform for young artists to express their imagination, creativity, and artistic skills. Students from all four houses participated with great enthusiasm and presented outstanding artworks based on the given themes. Their creations reflected originality, innovation, and a deep understanding of the topics. The artworks were evaluated on creativity, relevance to the theme, artistic expression, neatness, and overall presentation.

The judges appreciated the students' dedication and encouraged them to continue exploring their creative potential. Aavirbhav was a grand success, fostering confidence, artistic expression, and healthy competition among students while reinforcing the values of creativity, discipline, and teamwork.

Eat Smart Stay Fit

23rd July @AVIS: Students of Akshara Vaagdevi International School enthusiastically presented the "Eat Smart, Stay Fit – Kitchen Chemistry Show," showcasing the fascinating science behind the food we eat and the importance of healthy eating habits. It was conducted on 23rd.

The exhibits featured a variety of nutritious foods and live demonstrations explaining the chemical changes that occur during cooking, fermentation, food preservation, and digestion. Students illustrated how proteins, carbohydrates, fats, vitamins, and minerals contribute to a balanced diet and overall well-being.

Creative displays compared healthy and unhealthy food choices, highlighted the benefits of seasonal fruits and vegetables, and emphasized the importance of hydration and mindful eating. Students also demonstrated simple kitchen experiments, such as the reaction between baking soda and vinegar, natural pH indicators using turmeric and red cabbage, and the role of yeast in fermentation, helping visitors understand that chemistry is an essential part of everyday cooking. The Kitchen Chemistry Show encouraged students and visitors to make informed food choices and adopt healthy lifestyles. By combining scientific concepts with practical applications, the exhibit reinforced the message that *healthy eating is the foundation of a healthy life*. The event successfully inspired everyone to *eat smart, stay fit, and appreciate the science behind every meal*.

Interhouse Science Exhibition – SMART 360*

25th July @AVIS: Akshara Vaagdevi International School proudly organised the *Interhouse Science Exhibition – SMART 360*, providing students with an engaging platform to explore, innovate, and showcase their scientific knowledge through creative and interactive exhibits. Students from all four houses enthusiastically participated, presenting a wide range of innovative models, working prototypes, experiments, and research-based projects based on contemporary scientific themes. The exhibition highlighted the application of science in everyday life while encouraging critical thinking, creativity, collaboration, and problem-solving skills. Each house displayed exceptional teamwork and originality through exhibits focusing on environmental conservation, health and nutrition, biotechnology, computational thinking, sustainable living, renewable energy, water conservation, and household science experiments. The interactive demonstrations enabled visitors to understand complex scientific concepts in a simple and engaging manner.

Science Extempore Competition

4th July @AVIS: Science Extempore Competition for Grades IX and X challenged students to think critically, speak confidently, and express their scientific understanding on a variety of contemporary topics.

Participants drew topics at random and delivered impromptu speeches on subjects such as artificial intelligence, climate change, renewable energy, biotechnology, space exploration, environmental conservation, and scientific innovations. The competition tested not only their scientific knowledge but also their ability to analyse ideas, organise their thoughts, and communicate effectively within a limited time.

Students impressed the audience and judges with their confidence, clarity of expression, logical reasoning, and innovative perspectives. Their speeches reflected a strong awareness of current scientific developments and highlighted the importance of science in addressing global challenges and improving everyday life.

The competition fostered scientific temper, creativity, and effective communication while encouraging students to think independently and present evidence-based viewpoints. It also enhanced their public speaking skills, self-confidence, and ability to respond spontaneously.

Young Culinary Championship – No Fire Cooking

31st July @Avis: As per circular no Akshara Vaagdevi International School organized a No-Fire Cooking Competition for students of Grades VI to X. The event encouraged creativity, healthy eating, and teamwork through innovative fireless recipes. Students prepared a variety of nutritious and visually appealing dishes, showcasing their culinary skills and cultural diversity. Their creations were evaluated on presentation, taste, hygiene, nutritional value, and creativity. The competition provided a fun and engaging learning experience while promoting safe cooking practices. The enthusiastic participation and impressive displays reflected the students' talent and confidence. The event concluded on a high note, celebrating innovation, healthy living, and the spirit of collaboration.

Inter house Dance competition

31st July @Avis: Akshara Vaagdevi International School conducted an Inter-House Dance Competition, bringing together students in a vibrant celebration of rhythm, creativity, and teamwork. Participants from all four houses captivated the audience with energetic and well-coordinated performances across various dance forms. Their expressions, synchronization, costumes, and stage presence reflected months of dedicated practice. The competition fostered confidence, unity, and healthy sportsmanship among students. Each performance was applauded for its creativity and cultural richness, making the event a memorable showcase of talent and enthusiasm.

Participants performed in Solo, Duet and Group Dance categories based on the allotted themes for their respective grades. The performances reflected excellent coordination, expressive choreography, colourful costumes and effective use of props where appropriate. The students displayed remarkable enthusiasm, discipline and confidence throughout the competition.

wellness sessions: Kindness and Empathy

31st July @Avis: Akshara Vaagdevi International School observed the wellness theme 'Kindness and Empathy' through a series of meaningful initiatives that promoted emotional well-being, positive relationships, inclusion, and a safe learning environment. The month's activities encouraged students to practise compassion, respect, and responsible citizenship.

The School Counsellor, together with Wellness Teachers Ms. Sravya and Ms. Padmaja, conducted group counselling sessions on self-care, family relationships and emotional well-being.

- Group counselling sessions for Grades V–VII focused on managing distractions and improving concentration.
- Individual counselling support was provided to students requiring emotional and behavioural guidance.
