A Healthy Planet Begins with You..
Yoga: Balance Body, Mind, and Soul.

Responsible Citizens, Stronger Nation.

Dear Students, Staff and Parents,

True education nurtures not only knowledge but also responsibility. By caring for our environment, practicing yoga for physical and mental well-being, and serving society with compassion, we build a healthier and more sustainable future. Let us adopt eco-friendly habits, embrace mindful living, and work together to create a greener world and healthier minds for ourselves and future generations.

Dear Students,

"Education is most effective when teachers work together to create meaningful and standardized learning experiences for every child. By integrating Computational Thinking into everyday teaching, we empower students to think critically, solve problems creatively, and become confident, lifelong learners. As educators, our responsibility is not just to teach concepts but also to inspire curiosity, innovation, and a love for learning."

Standardized resource creation ensures consistency, quality, and meaningful learning across classrooms. When we integrate Computational Thinking into our teaching, we move beyond content delivery to develop students' critical thinking, logical reasoning, creativity, and problem-solving skills. Together, these practices empower educators to create engaging learning experiences and prepare students to thrive in a rapidly evolving world."

WARM REGARDS,

**MR. RAGHAVENDRA
HEAD OF THE MATHEMATICS
DEPARTMENT**
